BREVARD COUNTY UTILITIES SERVICES TO BEGIN SEWER ASSESSMENTS

To: Residents Residing in the South Beaches Area of Brevard County

Brevard County Utility Services Department will begin conducting a sanitary gravity sewer assessment in the Brevard County Utility service area for both the South Beaches and Barefoot Bay District. The assessment for the South Beaches service area is slated to begin the week of May 20 and estimated to take approximately three months to complete. The Barefoot Bay District assessment will commence July 2019 with notification being provided once a schedule is finalized.

The South Beaches assessment will start at Pineda Causeway and proceed south to Melbourne Beach.

The Brevard County Utility Service Department has contracted RedZone Robotics to perform the assessments with a purpose to identify current condition of the sewer sections and to develop a detailed program addressing needed repairs.

All RedZone employees will have a letter with them to verify they have permission to access our sewer lines.

For questions about the work being performed, please contact RedZone Robotics Project Manager, Ron Black, at 412-477-9722.

For any other questions please contact Brevard County Utility Services Department at 321-633-2093.
